Updated: 3/5/15

The Michigan Fitness Foundation (MFF) has reviewed primarily children's books and created the SNAP-Ed Book List to make it easy for the MFF SNAP-Ed Partners to find books for their programs that are pre-approved for SNAP-Ed allowability. These books are divided into two categories for use in SNAP-Ed programming. The first category, highlighted in green, is books that are Fully Approved. The second category, highlighted in yellow, is books that need Pre-approved Reader Notes.

The books that are Fully Approved meet SNAP-Ed behavioral objectives or can be used very easily to reinforce a lesson meeting one of the SNAP-Ed behavioral objectives.

The books that need Pre-approved Reader Notes may be used in Michigan SNAP-Ed programming only when they are used with supporting talking points that help the reader connect the book with a SNAP-Ed behavioral objective. These talking points (reader notes) must be pre-approved by your MFF SNAP-Ed Project Manager. The Pre-approved Reader Notes can include written connections between the book and your SNAP-Ed intervention, tip sheets developed for the book, etc. The Pre-approved Reader Notes must accompany your invoice when books are submitted for reimbursement.

Other books may or may not be allowable for SNAP-Ed programming. To determine allowability, start by using the Book Review Criteria form on the website to review the book and then work with your MFF SNAP-Ed Project Manager to gain approval for the book before purchasing.

Book Title	Author	Fully Approved	Need Pre- approved Reader Notes
A Bad Case of Stripes	Shannon, David		х
A Book of Fruit	Lember, Barbara Hirsch	х
