

Fidelity Checks

To Achieve Positive Results

MFF SNAP-Ed U

August 22-23, 2018

**ASK
AWAY!**

- ★ Review curriculum and materials of evidence-based intervention.
- ★ Develop scope and sequence documents with a major emphasis on the importance of consistent implementation of the program.
- ★ Train staff using the materials and curriculum from the original intervention.
- ★ Train staff on appropriate ways to gather data (distribute surveys, assist clients/ participants to respond, etc.).
- ★ Implement process evaluation methods and tools, including periodic on-site observations to ensure that the program is being implemented consistently and with fidelity across all staff and all locations.
- ★ Provide staff with a checklist to assess their own performance and maintenance of fidelity.
- ★ Host periodic meetings with staff to review activities and procedures and address challenges.
- ★ Provide one-on-one technical assistance and problem-solving support when necessary.
